# PROPORTIONAL GIVING AND WHY IT'S IMPORTANT!

- The key to Proportional Giving is to think in terms of percentage, not flat amounts.
- While we don't presume to set a percentage or amount for each other, the New Testament does teach us a general principle that we should give in proportion to what God has given us.
- God gives, values, and loves us at a rate of 100%. We get to choose what percentage of our blessings return our gratitude.
- Whatever proportion we decide on, we need to give willingly and cheerfully.
- Proportional Giving provides a regular chance to contemplate the desires of our hearts, to make sure we're not slipping into greed.
